LIBRARY SECURITY CAMERA POLICY

PURPOSE

Warren County Library strives to take reasonable precautions to assure a safe and secure environment for its patrons and staff. Since library staff is unable to provide direct supervision over all areas within the library and library grounds, video security cameras may be placed at selected locations in order to observe and record visible activities of persons within the library and library grounds in lieu of direct supervision. Staff and patron safety is the first priority in any threatening situation. The protection of library property is of secondary importance.

Observation of activity, whether in real time or from digitally records storage, shall be limited to activities that are specific to library operations, may affect the safety and security of library patrons and staff, and provide protection for library assets or property. Real-time monitors may be set up in public areas at the discretion of the Library Director. Because security cameras are not constantly monitored, staff and public should take appropriate precautions for their safety and for the security of personal property.

PRIVACY AND CONFIDENTIALITY

Camera placement shall be determined by the Library Director or his/her designee. Cameras shall not be placed in areas where there is a reasonable expectation of privacy, such as restrooms.

To the extent that any recorded images include identifiable persons requesting information or checking out an item, such record shall be treated as confidential as provided in NJSA 18A:73-43.2. Only designated library staff may view real time images or screen recorded images for potential breach of confidentiality. Any inadvertent views of protected information shall be held in confidence by the library staff under the library's Privacy Policy.

PUBLIC NOTICE

Signage shall be conspicuously displayed within the library advising of the recording of video images. Conversations or other audible communication shall not be monitored or recorded by the security cameras.

DATA STORAGE

Cameras will record activities in real time and images will be saved to the camera server's hard drive. The capacity of the storage system will determine the length of time the images are stored. Current software deletes images automatically as the capacity of the hard drive is reached.

Cameras will not be monitored continuously by library staff. Authorization to view stored images may be granted by the Library Director or his/her designee(s).

AUTHORITY TO ACCESS DATA

The Library Director holds the authority to designate library staff members who may access video in real time or in recorded formats. Generally, authority may be delegated to the assistant director and/or the network administrator.

Circumstances under which designated staff may access images in real time include, but are not limited to, observation of areas beyond view from designated work stations for assurance of safety and security. Access to real time or recorded imagery is also authorized to designated staff upon report of suspicious behavior, including policy violations, criminal activity, destruction or theft of library property or assets, or other activity that may be disruptive to library operations.

LIBRARY USE OF IMAGES

Video records and still photographs may be used to identify person(s) responsible for library policy violations, criminal activity on library property, or actions considered disruptive to normal library operations or harmful to the provision of library services.

Video records may be shared with authorized library staff when appropriate, or upon approval of the Director, for Library staff to identify those suspended from library property and to maintain a safe, secure, and policy-compliant environment.

LAW ENFORCEMENT

Video records may be used to assist law enforcement agencies in accordance with applicable local, state and federal laws. All requests for the viewing of real time or recorded imagery by law enforcement officials must be presented to the Library Director. If the Library Director is unavailable, such requests shall be presented to the administrative or supervisory staff designated by the Library Director to hold such authority. Law enforcement may view recorded images unless such images include

records protected by NJSA 18A:73-43.2, in which case such records would be released only pursuant to a valid court order.

PUBLIC DISCLOSURE

All requests for public disclosure of recorded images shall be presented to the Library Director, the administrative staff member designated to act in his/her stead, or the Warren County Public Information Office. Guidelines for public disclosure of video imagery shall follow the procedures established by Warren County in accordance with N.J.S.A. 47:1A-1 et seq. The Warren County Public Information Office is the official agency for public requests for information, and will be responsible for the release of this information.

UNAUTHORIZED ACCESS AND/OR DISCLOSURE

A breach of this Policy may result in disciplinary action up to and including dismissal. Any library employee who becomes aware of any unauthorized disclosure of a video record and/or a potential privacy breach has a responsibility to ensure that the Director is immediately informed of the breach.
